Education

Medicaps University, Indore
B.Tech in Computer Science (CSBS)

Oct 2021 – Nov 2025
CGPA: 7.34/10

Experience

Java Developer Intern | Acore IT Hub, Indore

Oct 2025-Present

- Built REST APIs using Spring Boot, added validations, DTO mapping, and JWT authentication.
- Designed MySQL, MongoDB, PostgreSQL data models and implemented CRUD-based backend modules.
- Used Docker to containerize backend services.

Software Development Engineer I Intern | Django Softwares Pvt. Ltd., Bangalore

Jan 2025-Apr 2025

- Developed and integrated secure, scalable RESTful APIs for the TechTalent Connect HRMS Portal using Spring Boot, MySQL, and Hibernate, improving API performance by 20% through optimized database queries.
- Enhanced the TechTalent Connect HRMS portal's API code quality through the development of 47 comprehensive Postman tests, which increased code coverage by 15% and reduced integration errors.

Full Stack Developer Intern | Ypsilon IT Solutions PVT.LTD, Indore

Sep 2023-Oct 2023

- Built pharmacy e-commerce backend features with Java, including product catalog, cart, and order processing.
- Delivered scalable, maintainable solutions while strengthening core and advanced Java skills.

Project Work

Pharmacy Store E-commerce Website

- Utilized Java for both frontend and backend, ensuring seamless integration and robust functionality.
- Built a Java-based full-stack pharmacy e-commerce platform with secure authentication and intuitive shopping interface.
